Comment:

- a. The entries on the attached town plan are of special value as they give a picture of postwar constructions of industrial and traffic installations in MOLOTOV. The new information was confirmed by several previous reports on individual installations.
- b. Special attention is directed to the following:
- (1) Aircraft plant (item No 24)
 - (2) Plant manufacturing fuses (item No 25)
 - (3) New power plant northeast of the known a/c engine plant
 - (4) Heavy armament plant (item No 14)
 - (5) Tank plant (item No 13)
 - (6) Several smaller installations on the bank of the Kama River (items No 5 through 10).
- c. Almost all objects entered on the town plan are known from previous reports. It can be assumed that this report furnishes the first correct information on their location and, especially, on the dimensions.
